Activity #2 – Web Design

Task Sheet #2 Written Output

Name: Ace Lawrence Z. Clavano   Date: April 19, 2024

Per Page Analysis

1. Personal Home Page

   Overall Assessment:

   - ✓ The code structure is well-organized, featuring clear comments and class names, making it easy to comprehend.
   - ✓ Semantic HTML elements are applied effectively, contributing to improved accessibility and search engine optimization.
   - ✓ CSS styling maintains consistency and adheres to a unified design scheme.
   - ✓ External font imports and image usage contribute to the visual appeal of the webpage.
   - ✓ The layout is responsive, with styles adapted for various screen sizes.
   - ✓ Despite these strengths, there are areas for improvement, including optimizing images for quicker loading times, ensuring compatibility across different browsers, and enhancing accessibility through the implementation of proper ARIA roles and attributes.

2. Academic Information

   Overall Analysis:

   - ✓ The code structure is well-organized and easy to read, with clear comments and class names.

- ✓ Semantic HTML elements are utilized effectively, enhancing accessibility and SEO.
- ✓ CSS styling is consistent and follows a coherent design scheme.
- ✓ External font imports are included for visual appeal.
- ✓ The layout is responsive, with styles for different screen sizes.
- ✓ However, some improvements could be made, such as optimizing images for faster loading and ensuring cross-browser compatibility.

3. Personal Information

Overall Analysis:

- ✓ The code structure is well-organized and easy to understand, with clear comments and class names.
- ✓ Semantic HTML elements are used effectively, enhancing accessibility and SEO.
- ✓ CSS styling is consistent and follows a coherent design scheme, ensuring a visually appealing layout.
- ✓ Flexbox is utilized for layout management, providing flexibility and responsiveness.
- ✓ However, some improvements could be made, such as optimizing images for faster loading and ensuring cross-browser compatibility.

4. Family Information

In summary:

- ✓ The code is structured neatly and is easily comprehensible, thanks to clear comments and well-named classes.
- ✓ Semantic HTML elements are employed effectively, boosting both accessibility and search engine optimization.
- ✓ CSS styling is consistent throughout, maintaining a cohesive design scheme that contributes to an aesthetically pleasing layout.
- ✓ Flexbox is used for managing layout, offering flexibility and responsiveness.

✓ Nonetheless, there are areas for enhancement, such as optimizing images to improve loading times and ensuring compatibility across various web browsers.
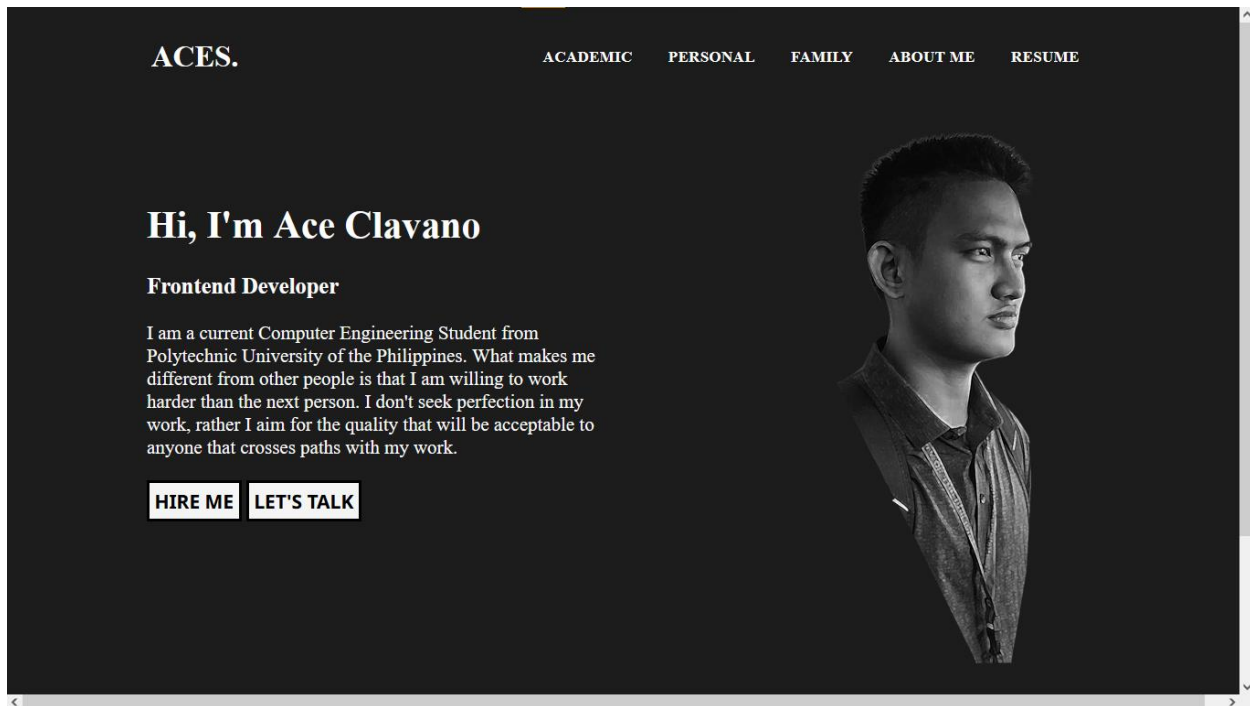

5. About Me

Overall, the code is neatly structured and comprehensible, featuring explicit comments and class labels. Semantic HTML elements are employed adeptly, bolstering both accessibility and search engine optimization. The CSS styling maintains consistency throughout, adhering to a unified design concept for an aesthetically pleasing layout. Flexbox is effectively leveraged for layout control, delivering adaptability and responsiveness. Nevertheless, there are areas that could be refined, including optimizing image assets for improved loading times and ensuring compatibility across different web browsers.

6. Resume

Overall:

✓ The HTML code presents a well-structured and styled webpage containing resume information.
✓ It effectively utilizes CSS for styling and layout management, ensuring a visually appealing and user-friendly design.
✓ The content is organized logically, making it easy for visitors to read and comprehend the information presented.
✓ However, some areas for improvement could include adding more descriptive alt attributes to images for accessibility and optimizing the layout for smaller screens to enhance responsiveness.

ACADEMIC   PERSONAL   FAMILY   ABOUT ME   RESUME

Hi, I'm Ace Clavano

Frontend Developer

I am a current Computer Engineering Student from Polytechnic University of the Philippines. What makes me different from other people is that I am willing to work harder than the next person. I don't seek perfection in my work, rather I aim for the quality that will be acceptable to anyone that crosses paths with my work.

Describe Yourself

"I believe that my purpose is not defined by the results of my work but the effort and determination that got me to where I am in the first place. I believe in the power of paying attention more than craving attention because the more I pay attention to someone or something that I love, the happier I am. I moved on from my mentality of seeing my peers as competition rather I see them now as collaborators. I am aware of the things that I can control and the things I can't control. Since I had the breakthroughs with myself after turning 18, I have made it a mission to be positive, be intentional with my dreams, become determined, have faith, be disciplined, remove negativity, and leave a legacy for me and my family. Lastly, I believe in the fact that doubts are part of a person's life and it's up to us to if we are to let these illusions in our mind hold us back or guide us to the path that are looking for.

One quote that stood out to me watching talks on YouTube was this quote by Mario Lanzarotti, "On the other side of self doubt is the person you have been looking for your whole life." That single statement changed how I think forever. "

Talent

Writing Articles, & Deadlifting

Weaknesses

Backend Developing, Mathematics

Strength

Fitness, English Profiency, Literary, & Science

Hobbies

Playing Video Games, Eating, & Working Out

Sports

Basketball, & Volleyball

EDUCATIONAL:

Tertiary Level:

Senior High School & Bachelor of Science in Computer Engineering
Polytechnic University of the Philippines
H2X4+H5R, Anonas, Santa Mesa, Maynila, 1015 Kalakhang Maynila
2019-Present

Secondary Level:

Junior High School
Dr. Arcadio Santos National High School
Km.15, 1700 E Service Rd, Parañaque, 1700 Metro Manila
2015-2019

Primary Level:

Elementary
Upper Bicutan Elementary School
F3Q3+PJ7, General Santos Ave, Lower Bicutan, Taguig, 1632 Metro Manila
2009-2015

SKILLS QUALIFICATION:

UI/UX Developer
Google Developers Students Club
2023-Present

SEMINAR/TRAINING ATTENDED:

Google Developers Students Club	Data Analytics Conference	March 21, 2024
Polytechnic University of the Philippines	Software Engineering Day	June 14-16, 2023

Batch 11 Year 2024

TELECALL INSTITUE OF TECHNOLOGY INC

Overview

The HTML documents are structured to represent different sections of a personal website, including academic, personal, family, about me, and resume information. Each document begins with a header containing navigation links to other sections of the website.

In terms of styling, CSS is used consistently across all documents to create visually appealing layouts. Various fonts are imported to enhance the design, and flexbox is utilized for layout management, ensuring flexibility and responsiveness.

Each section of the website contains relevant content presented in a clear and organized manner. Semantic HTML elements are employed effectively, contributing to accessibility and search engine optimization. Additionally, images are included to complement the content and enhance the visual appeal.

The resume section provides detailed educational background, skills qualification, and seminars/training attended. The information is presented logically, making it easy to read and understand. The use of tables enhances the presentation of seminar/training details.

Overall, the provided information demonstrates a well-structured and visually appealing personal website, with clear navigation and organized content. However, there are opportunities for improvement, such as optimizing images for faster loading and ensuring cross-browser compatibility for a better user experience.
